

Social Studies Homework – To be used with the “floppy textbook,” *Our California*.

Name:

1. Read page 4 of *Our California* and answer questions 1 and 2 in your book (write the answers in your book).

2. Complete the map activity at the top of page 5: Trace the line of latitude and the line of longitude that comes closest to Ridgecrest.

3. Complete page 6.

4. How does latitude and longitude help you find the exact location of a place?

5. Complete the map activity at the top of page 9: On the left-hand globe, mark the Northern Hemisphere with an N and the Southern Hemisphere with an S. On the right-hand globe, mark the Eastern Hemisphere with an E and the Western Hemisphere with a W.

6. Read page 9 and answer question 3 in your book (write the answer in your book).

7. On the pictures of the globes on page 9, draw a star next to the Tropic of Cancer and a square next to the Tropic of Capricorn.

8. In which two hemispheres is California located? _____ and _____
